

Request for Action

TO: Heritage Preservation Commission
FROM: Kim Clausen, Community Development Coordinator
MEETING DATE: July 15, 2019
SUBJECT: State Historic Preservation Conference

PURPOSE:

The purpose of this memorandum is to determine which commissioners will be attending the State Historic Preservation Conference.

DISCUSSION:

The State Historic Preservation Conference is September 11-13 in St. Cloud, Minnesota. The Conference is a great way to learn about current preservation issues, tour other historic communities and network with other HPC staff and commissioners. The HPC's Certified Local Government Designation requires that at least one commissioner or staff person attend the conference. Staff will attend but it is always nice when commissioners are able to attend. Scholarships are typically available to cover expenses.

REQUESTED ACTION:

Determine which HPC members will be attending the conference, and on which days, so staff can make the necessary registrations and reservations.

St. Cloud
