

# WATERMAINS TO BE FLUSHED

Watermains in Faribault will be flushed the week of April 25th—April 28th, 2017, on four separate nights, weather pending.

Watermains are routinely flushed to clean the distribution system. Residents are advised to avoid or limit water usage during the flushing period and check for discoloration prior to using water for laundry purposes. If discoloration exists, residents should run the **cold** water tap until it becomes clear. **It is recommended that residents shut water off at the meter to avoid drawing in rust, particles, or other debris that is being flushed from the lines.**

## FLUSHING SCHEDULE

**Tuesday, April 25, 2017 – ZONE 1** -South of 7<sup>th</sup> St. NW, West of 9<sup>th</sup> Avenue N.W. and S.W.

**Wednesday, April 26, 2017 – ZONE 2** South of 7<sup>th</sup> St. NW, East of 9<sup>th</sup> Avenue N.W. and S.W., West of the Straight River

**Thursday, April 27, 2017 – ZONE 3** North of 7<sup>th</sup> St. NW, West of 8<sup>th</sup> Avenue N.W., North of Cannon River to North of 20<sup>th</sup> Street N.W.
