

Request for Council Action

TO: Mayor and City Council
THROUGH: Tim Murray, City Administrator
FROM: Paul J. Peanasky, Parks & Recreation Director
MEETING DATE: July 23, 2019
SUBJECT: Approve Quote for Playground Equipment for Meadows Park

Background:

We recently requested quotes to purchase playground equipment for Meadows Park and received two proposals. Upon review and discussion by the Park & Rec Board and Parks Dept. Staff, it was determined that the City will get much more equipment for the same dollar amount from Webber Recreation. We have \$75,000 budgeted for this amenity of the park.

Vendors were asked to provide a list of equipment for the specified dollar amount. Webber Recreation has five (5) different features, covering multiple age groups and the second vendor only had three (3). Both proposals include the installation of equipment. Although the proposal from Webber Recreation is slightly higher (\$1,427.66), it has more equipment. This is good quality equipment as the City has it in nearly all of the neighborhood parks.

The equipment will take approximately 8-10 weeks from date ordered to arrival. We hope to have enough of the park designed at that point to install. Other components of the development of Meadows Park will be coming forward in the near future.

Recommendation:

Staff recommends approval of the quote of \$74,976.28 from Webber Recreational Design for playground equipment for Meadows Park.
