

Council Committee Memorandum

TO: Joint Council Committee
THROUGH: Tim Murray, City Administrator
FROM: Travis Block, Public Works Director
MEETING DATE: March 4, 2020
SUBJECT: Faribault Foods Pre-Treatment Project Update

Discussion:

Faribault Foods has been experiencing some odor issues from their effluent that is discharged into the City's sanitary sewer system. They have been working with a consulting engineer for the past year on a pre-treatment project to mitigate the odor. The project will also address challenges brought on by the addition of new product lines.

Dave Tieman with Faribault Foods will be present to provide an update on the project, the mitigation measures being implemented, and the projected timeline to bring the improvements on line.
